Firm Overview

M E P Engineers, LLC

Mechanical, Electrical, Plumbing
Engineering & Construction Services

EXPERTISE & EXPERIENCE

M E P Engineers, LLC (MEP) is a woman-owned, boutique engineering firm located in Farmington Hills, Michigan, providing high-quality mechanical, electrical, plumbing and HVAC services since 1994.

As a one-stop resource, our engineers are highly qualified in all aspects of studies, design, maintenance, construction support, and project management of the various building systems.

MEP currently employs 10 staff members, including four professional engineers. Our engineers are registered in 13 states, with two NCEES professionals and three LEED AP professionals. Clients include building owners, architects, facility managers, developers, design/build contractors, and construction management firms.

Investing in your success, we operate in both AutoCAD and REVIT environments, ensuring accurate, effective designs and specs.
